The SPN2021 aims to bring together, in a stimulating environment, speakers from several Portuguese Universities and Research Centers, as well as from other European countries. Based on previous events, SPN2021 expects to attract about 250 participants, most of them from Portuguese institutions, and more than 20 companies.

We strongly believe that SPN2021 is an excellent opportunity to publicize your brands/products and we would like to count on your support to organize this event that reflects the great dynamics of the Neurosciences in Portugal.

We are open to discuss the forms of support that best fit the characteristics of your brands/products. A commercial area will be made available, with wide visibility, where you can present your products/brands during the congress. The program also includes a period dedicated to short presentations by delegates of companies that highly collaborate in the event.

We trust you will find this meeting an attractive opportunity to increase the visibility of your company and will look forward to hearing from you.
